@Resort Hotel Kume Island

Launching battery swap and sharing app

- Turnkey operation
- No fear for lacking electricity
- Solar cells on the roof

Actual case

MOU with ANA and Ishigaki city government

Resort island of the Southern Japan
1M+ tourists visit annually.

30 vehicles and 10 battery station deployed
as a launch project.

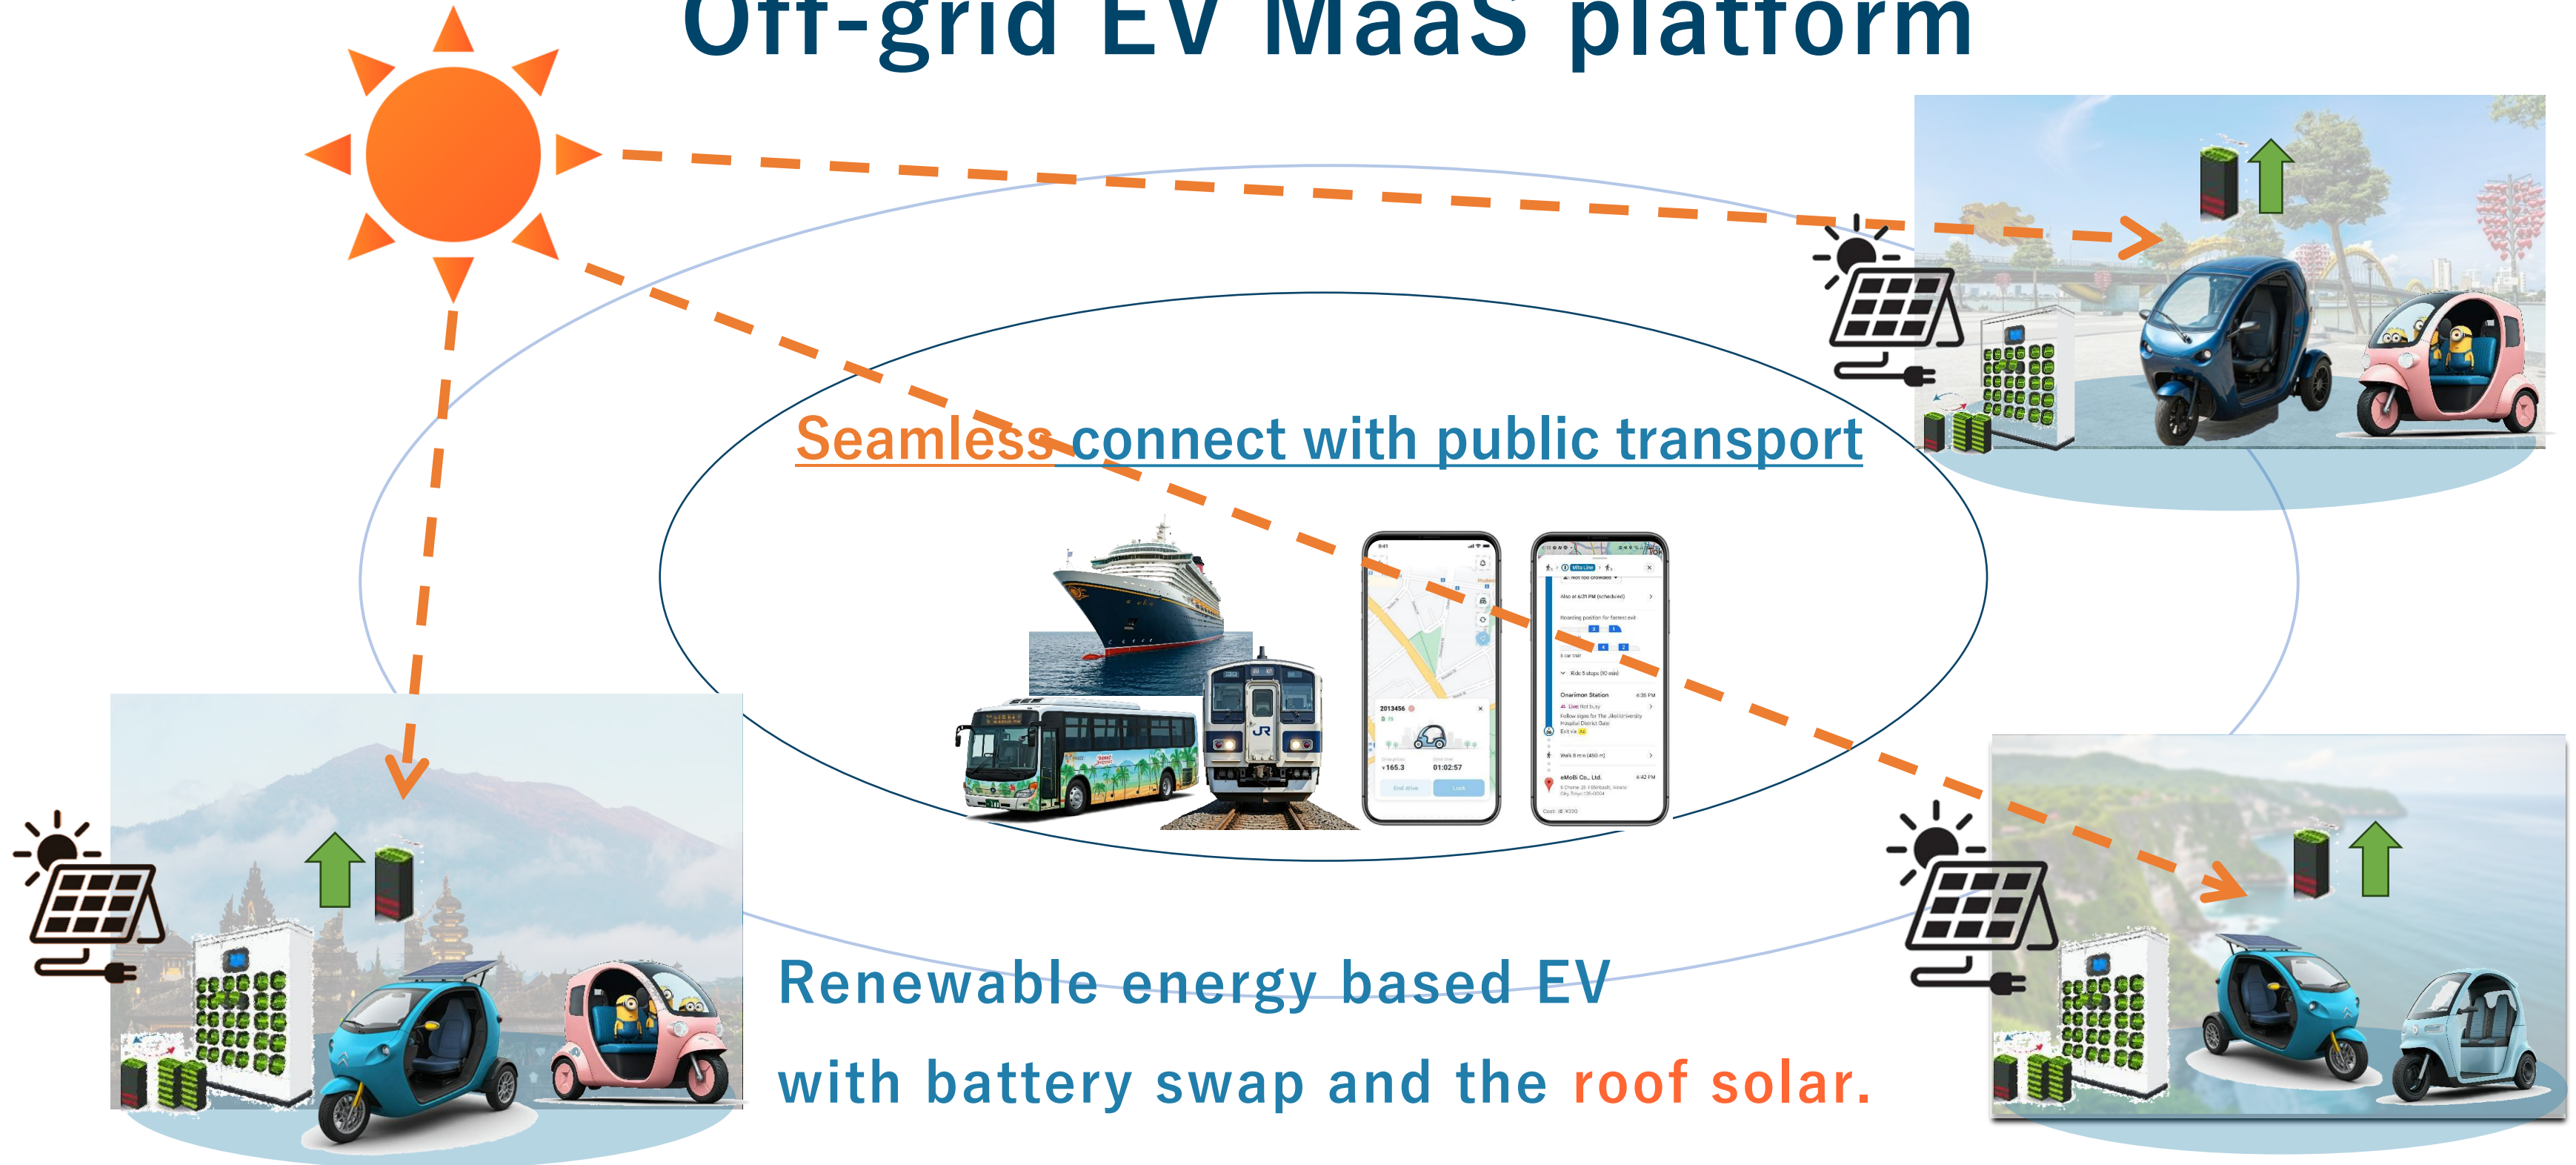

Solution for sustainable tourism and
over tourism.

What we build

Off-grid EV MaaS platform

Seamless connect with public transport

Renewable energy based EV
with battery swap and the **roof solar**.

We're looking for the partner to conduct a pilot project

Pilot project in the resort area .
See whether we can penetrate it to locals.

Vehicle, battery, Solar cells tech package
as a Japanese brand.
