Moderator

- Dr. Haruo Ishida, Prof. Emeritus, the Univ. of Tsukuba, Japan

- My impressions ▪ ▪ ▪
- GX is quite an important and big challenge to us all.
 - To prevent global boiling
 - To save our environment
 - To have better greener/circular economy system
 - To make our people and future happier, brighter and more hopeful
- We have wonderful presentations showing;
 - Big and steady progresses
 - Small to Large scale challenges: Island, City, Country
 - Various fields of concerns: policy strategy, implementation, staff training,
 - Data P/F development and utilization

- One common question to ASEAN and Japanese Colleagues.
- Further directions/steps of Smart City Collaboration and Expectations
